

JUMPING JIVE LEGACY

Francisco Colomer

JIVE Director

JJ Coordinator

- JJ has been instrumental in the development or reinforcement of JIVE activities
- In all three “themes”: **sustainability, technology, and future**
- Many activities are now “core business” and will continue after the project,
 - Communications
 - Support of EVN stations
 - Networking for new members in JIVE, partners in EVN/JIVE
 - After EVN Science Vision -> EVN Technological roadmap
 - Role of JIVE in developing VLBI in Africa, also in Latin America (IVIA)
 - Development of SKA-VLBI – towards a *SKA-VLBI Consortium*
- A new concept has emerged, a “**Global VLBI Alliance**” that will facilitate coordination, user access and support, and collaboration with third-party instruments, led by JIVE
- EC support is very important to develop **new services** (HE INFRA-TECH), **access** (H2020 ORP) and **enhanced user support** - towards a “science ready” observatory !
 - And links to EC Missions (e.g. green computing, capacity building, etc)
 - And networking !! (e.g. **ERIC Committee**)
- JJ has made possible to engage deeply in the ERIC ecosystem, through participation (and leadership) in the **ERIC Forum**, also **EGERIC** recommendations
- JIVE is recognised stakeholder in EC initiatives, e.g. **ERA Forum, SDGs**
